Subject: Development of Learning Outcome Map and Competency-Based Framework for Grades 9-12 (NCERT Curriculum) with Assessments and Pedagogical Approaches.

Dear Mr. Dipak Dave,

With reference to the above, Australian Council for Educational Research (India) invites you to **provide assistance in developing a learning outcome map and a competency-based learning framework for grades 9-12 (NCERT curriculum), along with associated assessments and pedagogical approaches**, as a Subject Matter Expert – Physics. The scope of work is as follows:

A. Development of Learning outcome map (NCERT curriculum):

G9-10- Physics

G11 -12- Physics

The task involves creating a learning map of students while decoding learning concepts into smallest units of learning keeping in mind the expected curriculum standards and the different levels of cognitive and affective skills. NCERT learning outcome map will include:

1. Breaking down the curriculum content into accessible learning indicators that may include knowledge, skill, or attitude. The idea is to arrive at the last level of the learning node for each concept, based on which unique assessments will be made.
2. Establishing the link among the different learning Indicators within a grade (horizontal progression) and across the grades (vertical progression)
3. Identifying the prerequisites/precursors of each learning Indicator that help identify the unique learning path for individual students based on their performance in the formative or summative assessments.
4. Provide suggested assessment mode for each learning indicator and suggested pedagogical approach.

B. Development of a holistic competency-based learning framework, CBLF (NCERT curriculum):

G9-10- Physics

G11 -12- Physics

Improving Learning

This task involves developing a framework to help teachers design instructions and lesson plan along with assessments in the classroom with an aim to build 21st Century competencies in the students. The learning indicators will help teachers design appropriate tasks in the form of extended learning that goes beyond the classroom under different real time contexts. This will include:

1. Create chapters defining the competencies and the associated pedagogical approaches, assessment techniques and sample assessment items, and associated rubrics for every grade aligned to each of the competencies described in the learning outcome map.
2. Identify all possible errors, misconceptions, and learning gaps that students may have for a few learning indicators for each grade aligned to each competency level - a kind of distractor framework.

C. Teacher handouts and training materials where required.

1. Since this is a research work, it would be iterative in nature involving several rounds of peer review and incorporation of feedback.

Your engagement shall commence on 07.09.2023 and shall end on 30.12.2023 ("Term"). The terms and conditions of your engagement are set forth below:

1. You will report directly to Dr Abha Bhagat, ACER India.
2. You will sign a Non-Disclosure Agreement prepared by ACEB India, as attached to this Agreement in Schedule 1.
3. You must keep confidential all information of ACER India which becomes known to him/her during this Agreement.
4. You must use proprietary and confidential information of ACER India solely for the purpose of performing his/her obligations under this Agreement and must not disclose such information to any person (other than as necessarily required for the performance of those obligations) without the prior written consent of ACER India.
5. You must provide all reasonable assistance to ACER India, to retain the confidentiality of proprietary information of ACER India.
6. On termination or expiry of this Agreement, you must immediately return to ACER India, where not required by ACER India, delete, or destroy all confidential information of ACER India in his/her possession or control.
7. Subject to your acceptance of the terms and conditions contained herein, your project and responsibilities during the term will be determined by the supervisor assigned to you.
8. In consideration for the Services, ACER India will pay you as per the following payment schedule over the period of your engagement:

On the implementation of GST, you will pass on the direct/indirect benefits accruing to you. This would include benefit pertaining to input tax, reduction in your cost of input material due to GST, reduction in effective tax rates etc.

Since the introduction of GST, if you had in any financial year or are expecting to have in the current financial year an annual Turnover more than the threshold specified under GST provisions for mandatory issuing e-Invoices, then you must issue e-Invoices under the GST provisions. If you have not issued the same till date, you should regularise the same immediately. In any case, you would hold UltraTech Cement Ltd harmless and that you shall be required to indemnify UltraTech Cement Ltd for any loss suffered by UltraTech due to non-issuance of e-Invoices by you.

The present Turnover threshold specified is Rs.500 crores per annum, and this has been notified to be reduced to Rs.100 crores per annum w.e.f. 01.01.2021.

TCS Clause:

Further as per newly enacted provision 206AB/206CCA of IT Act, UltraTech shall deduct/collect TDS/TCS at higher rate if any supplier (of goods or services) is non filer of Income Tax return in last two assessment years immediately preceding the year in which TDS/TCS is to be deducted/Collected and in their case TDS/TCS deducted is exceeding Rs.50,000/- in each year. The last two years mentioned hereinbefore shall exclude the year for which time of filing return is not expired u/s139(1) of IT Act. In the absence of PAN, TDS would be deducted at higher rate u/s206AA of the IT Act. The supplier shall give the declaration (with supporting) as per format provided by UltraTech declaring the fact about filing of return of Income and compliance of section 206AB/206CCA of the IT Act.

Dear Sir,

Greetings from the Faculty of Doctoral Studies & Research (FDSR), RK University, Rajkot
(<http://rku.ac.in/about-rku/#>)

You have been nominated by RK University for appointment to the Board of Referees for the thesis of our PhD scholar **Pandey Sachinkumar**. We are attaching the abstract of the thesis of the scholar for your perusal. We request you to let us know of your willingness to review the doctoral thesis after which we will email the thesis to you. Upon completion of the review process and receiving the review documents, we e-transfer an honorarium of **INR 3,000** for the valuable academic contribution. As part of our low-carbon-footprint policy, RK University has adopted a paperless review procedure, owing to which we request our thesis reviewers to send us their reviews electronically. We normally expect our reviewers to email the review report within 4 weeks time.

Looking forward to receiving your consent in the matter.

Thanking you

Subject: Invitation to join the Thesis Seminar of RK University as a subject expert, for evaluating the Thesis Seminar of RK University's Ph.D. Scholar(s).

Name of Scholar: **Rachappa Dhondiba Mahale, Specializations : Pharmaceutics**

Thesis Viva Venue: SOP Board room, School of Pharmacy, RK University

Dear Sir,

Season's greetings from RK University! RK University has been established by a legislative act of the Government of Gujarat. The University offers a wide variety of undergraduate, post-graduate, doctoral, and research-level programs in the fields of Engineering, Pharmacy, Management, Physiotherapy, Computer Applications, and Basic Sciences.

We regularly monitor the progress of our Ph.D. Scholars and provide them with the necessary feedback as and when required. Doctoral candidates who successfully satisfy all the important eligibility criteria are allowed to deliver a Thesis Seminar. Accordingly, a Thesis Committee has been constituted for evaluating the Thesis Seminar of RK University's Ph.D. Scholar(s) on **05/02/2024** (10:30 AM). RK University is hereby pleased to invite you to join this Committee as a subject expert in view of the fact that you are a leading academician in the field of your specialization. We request you to kindly accept our invitation and convey the same by email to trdesai@rku.ac.in. As a token of appreciation of your academic contribution, the university would be pleased to offer an honorarium of Rs 2500 for the Thesis Seminar. Please try your best to reach the RKU campus half an hour before the commencement of the Thesis Seminar.

Best regards,
