About Webinar:

Education is at the core of developing the people and the state of society is a direct consequence of the state of education. The purpose of education is not to just provide livelihood training but to enable the students to live a responsible and happy life - in harmony with oneself, family, society and nature i.e., the existence. This has been very well articulated in terms of goals of National Education Policy (NEP)-2020 as well as in United Nations Sustainable Development Goals (SDGs) towards quality education.

This webinar proposes an understanding of basic aspirations of human beings in light of Universal Human Values (UHV) and how these fundamental issues related to happiness and real success in the life & profession can be addressed through education leading to self-confidence, self-discipline, commitment and courage.

Points Discussed in the Webinar:

- The Process of Self-exploration
- The role of education
- Academic success, career success, life success
- Value Education (what to do?) and Technical Education (how to do?)

WEBINAR

Universal Human Value based Education and Its Aspirations in NEP-2020

on **Saturday, 24th April 2021**
at **3:00 PM to 5:00 PM**

About Webinar

Education is at the core of developing the people and the state of society is a direct consequence of the state of education. The purpose of education is not to just provide livelihood training but to enable the students to live a responsible and happy life - in harmony with oneself, family, society and nature i.e. the existence. This has been very well articulated in terms of goals of National Education Policy (NEP) 2020 as well as in United Nations Sustainable Development Goals (SDGs) towards quality education. This webinar proposes an understanding of basic aspirations of human beings in light of Universal Human Values (UHV) and how these fundamental issues related to happiness and real success in the life & profession can be addressed through education leading to self confidence, self-discipline, commitment and courage.

About Us

Value based Education is at the core at Atmiya University and the Centre for Life Skills at the University is the fulcrum of all these activities. Universal Human Value (UHV) Cell is the part of this Centre and is active since 2014. All the teaching and non-teaching staff members at the University have undergone series of training programs on UHV in the light of Jeevan Vidya - a co-existential philosophy propounded by Shri A. Nagraj Ji. A Group of staff members have also undergone intense training in the form Adhyayan for better understanding and meaningful implementation at the University. Courses on UHV are an integral part of all program curriculums. Regular short term and long-term training programs are conducted within and outside University for benefit of all.

Now from this June onwards we are planning to introduce Jeevan Vidya Books by A. Nagraj and discuss in detail or we can say we are planning to start book study over there.

Outcome from weekly workshop/sessions:

The main and very important outcome from those efforts from both side, out of 150 teachers, 35 teachers willingly go for deep study of concept.
