Additional Information

List of Functional MoUs / Linkage with Relevant Organizations for the Courses Relevant to Professional Ethics, Gender, Human Values, Environment & Sustainability and SDG

 ATMIYA UNIVERSITY	NAAC – Cycle – 1	
	AISHE: U-0967	
	Criterion 1	CA
	KI 1.1	M 1.3.1

Atmiya University, committed to academic excellence and holistic education, recognizes the critical role that Functional MoUs (Memorandums of Understanding) and linkages with relevant organizations play in enhancing the curriculum, especially for courses addressing Professional Ethics, Gender, Human Values, Environment & Sustainability, and the principles of the Sustainable Development Goals (SDGs) outlined in the National Education Policy 2020. Here’s why these linkages are crucial:

1. Real-World Exposure and Practical Learning

- Collaborations with NGOs, environmental organizations, industries, and government bodies provide students with hands-on exposure to real-world challenges in ethical practices, gender inclusivity, and environmental sustainability.
- Such linkages enable experiential learning through fieldwork, internships, workshops, and community engagement programs, enriching theoretical knowledge with practical insights.

2. Integration of SDG Principles

- Organizations aligned with Sustainable Development Goals (SDGs) help in tailoring curriculum components that address global priorities such as quality education (SDG 4), gender equality (SDG 5), and climate action (SDG 13).
- Students gain a broader understanding of how to contribute to sustainable and equitable development in their professional and personal lives.

3. Promotion of Professional Ethics and Values

- Partnerships with organizations committed to professional ethics and human values enable the university to embed ethical decision-making and integrity into the learning process.
- Collaboration fosters case studies, expert talks, and training modules emphasizing ethical dilemmas, corporate responsibility, and inclusive practices.

 ATMIYA UNIVERSITY	NAAC – Cycle – 1	
	AISHE: U-0967	
	Criterion 1	CA
	KI 1.1	M 1.3.1

4. Gender Sensitization and Inclusivity

- Linkages with gender-focused organizations, such as those promoting women empowerment, enable students to learn about gender equality issues and inclusive practices.
- The partnerships facilitate sensitization campaigns, guest lectures, and research opportunities to address pressing gender-related societal challenges.

5. Environmental Awareness and Sustainability

- Partnerships with environmental agencies and sustainability-focused organizations help integrate climate literacy, green technologies, and sustainable practices into the curriculum.
- Students participate in green initiatives, ecological restoration projects, and workshops on renewable energy, fostering a sense of environmental stewardship.

6. Skill Development and Capacity Building

- Collaborations with organizations provide opportunities for skill development in leadership, communication, and critical thinking, essential for addressing cross-cutting issues.
- Exposure to professional environments prepares students for interdisciplinary problem-solving and enhances their employability.

7. Community Engagement and Social Impact

- Functional MoUs with community organizations support social outreach programs, enabling students to work on grassroots-level projects addressing societal challenges.
- Activities like awareness drives, health camps, and waste management initiatives inculcate a sense of civic responsibility and empathy.

 ATMIYA UNIVERSITY	NAAC – Cycle – 1
