Dear Dr. Kevinkumar Garala

Associate Professor,

School of Pharmaceutical Sciences, Atmiya University, Rajkot, Gujarat, India.

I am pleased to welcome you as a member of **HBRP Publication** editorial board. I genuinely appreciate your willingness to be involved in the important task of mapping the future trajectory of HBRP Publication by joining hands with your fellow associates and the **HBRP Publication** management.

It gives us immense pleasure to officially intimate you that, you have been nominated as an **Editor** on the board of following Journals:

- **Journal of Advances in Pharmaceutical Sciences**
- **Journal of Advances in Drug Discovery and Development**
- **Journal of Advances in Experimental Therapeutics and Neurotherapeutics**

You will be working with your peers/fellow editors, reviewers and referees, representing respective **HBRP Publication** reviewers', referees' panels.

I anticipate your active participation and valuable knowledge inputs in these Journals. Needless to say that respecting your subject expertise/competence, we have to primarily lean upon you in the high-end review/screening of manuscripts. You are also requested to please contribute your own rich research and review articles with our journal.

I wish you a long, productive and purposeful association with us.

Dear Mr. Joshi,

Thank you for submitting your review of "Integrative Analysis of Microbiome and Metabolome Revealed the Effect of Microbial Fertilizer on Microbial Community Diversity and Function in Rhizospheric Soil Under Tobacco Monoculture" (control no. Spectrum04046-23). A copy of the review is attached for your reference.

(Please note that any attachments you may have included with the review will not be shown in this e-mail.)

Open Peer Review

ASM policy allows authors who submit to Microbiology Spectrum to opt for open review. If the author opts for open review and the paper is accepted and published by this ASM journal, then the review(s), decision letter(s), and author response(s) will also be published. As a reviewer, you may optionally choose to disclose your identity and allow your name to appear in published materials. At the time this version of the manuscript was submitted, the open review status was as follows: author opted out.

Recommendation (Required): Accept

Are the authors' conclusions supported by the data?: Yes

Is manuscript written in comprehensible english?: Yes

Does the study require a public repository?: No

Public repository details (Required):

Biosafety/Biosecurity Concerns?: Yes

Statistical tests applied?: I am not qualified to evaluate this

Comments for the Author:

In material and methods:
Tobacco plant growth and sampling
Need more clarification on traditional compound fertilizer to confirm the impact
Metabolome Analysis of tobacco rhizospheric soil
Need more clarification on extraction of metabolites and on LCMS parameters.
In discussion section:
560, Prediction of biomarker(parameters) are missing

Comments to the Editors (Required):

As traditional compound fertilizers information is not mentioned in manuscript it is difficult to predict the impact of microbial communities and metabolites
IN LCMS analysis missing data is its flow rate, solvents used.

Dear Dr. Ranpara,

I am writing to you as to an expert in the topic related to the paper listed below. Let me ask if you would like to be a referee for the manuscript entitled "Comparing the Influence of Cyber Security Knowledge on Attack Detection: Insights from Experts and Novice Cyber Security Professionals" by Prof. Mozam M. Saeed (corresponding author) and could help us in determining whether this manuscript is appropriate for publication in Open Computer Science (<https://www.degruyter.com/journal/key/comp/html>)

Please DO NOT respond to this email directly, use the links below.

This is the abstract:

Cyber security relies on knowledge of the domain and stipulates reasoning and cognition to assess threats in network data. Non-compliance with data-breach prevention procedures by employees poses risks to cyber-attacks. This study contributes by raising awareness of information security among experts and novices. The impact of cyber security knowledge on detecting intrusions in simple networks is examined. A simplified Intrusion Detection System (IDS) is developed to investigate the uncovering of malicious events by individuals with or without cyber security knowledge. A cross-sectional study was conducted by recruiting 75 respondents who were from Al Neelain University. Among these participants, 35 were considered novices (students) in cyber security; while 40 were security professionals from technical communities. The study procedure involved novices observing ten scenarios and completing the questionnaire, while experts observed three scenarios and filled out the questionnaire. The findings of this study demonstrate that cyber security knowledge facilitates the accurate detection of malicious events and reduces mislabelling benign events as malicious. A deep understanding of a particular network is necessary for making precise detection decisions, which rely on cyber security knowledge. Experts exhibit the capability to differentiate different types of cyber-attacks. They accurately assess various network settings and determine the maliciousness of networking events with greater precision. In conclusion, this study highlights the importance of cyber security knowledge in detecting and differentiating cyber-attacks. The expertise of experts in network analysis and precise determination of malicious events emphasizes their significance. These findings have practical implications for enhancing attack detection capabilities.

Your 2023-2024 Teaching Excellence Award Reviews

CSTA Awards Committee <awards@csteachers.org>
To: Ripal Ranpara <ranpararipal@gmail.com>

Tue, Apr 2, 2024 at 12:58 AM

Dear Ripal,

Greetings!

You are being requested to review applications for the 2023-2023 CS Teaching Excellence Award as a reviewer.

The deadline for submitting reviews is **Sunday, April 23, 2023, at 11:59 p.m. PT.**

To view the submissions and complete your reviews, please use the link below:
[2023-2023 CS Teaching Excellence Awards: Application Part Two](#)

If you weren't able to join the CSTA Awards Committee for one of the reviewer training sessions, please review the following materials prior to starting your reviews:

- [CS Teaching Excellence Award Reviewer Orientation](#) - this document has everything you need to know about how to log into the review portal and conduct reviews.
- [Cvent application and review portal](#)
- [Zoom recording](#)

If you are assigned someone you know, please let us know so we can reassign that nominee. We want to keep this process from any positive or negative bias reviewers may have regarding a specific nominee. We expect that the review of each nominee should take about 30 minutes to an hour to review.

Deadline:

We ask that all reviews be completed by **Sunday, April 23, 2023, at 11:59 p.m. PT.**

To login to the reviewer portal, follow these steps:

1. Go to the CS Teaching Excellence Award Landing Page.
2. Click "Log In" in the upper right-hand corner of the webpage.
3. A login screen will pop up. Under the "log in" button, please click "Need to create an account?"
 - Note: you do need a new account for this specific project, even if you have previously applied or reviewed submissions in Cvent.
4. Create an account using the email address we are using to contact you.
 - If you have already created your account for this project, please skip this step.

Dear Honorable Reviewers,

Good Day to you.

Thank you for signing up as a reviewer for 2024 IEEE 15th Control & System Graduate Research Colloquium (ICSGRC 2024).

To provide authors with timely decisions, we kindly ask for your support in completing your reviews by 15th April 2024.

For those who have not yet started or do not recall the instructions, please click on the following link:
https://www.asprg.net/icsgrc2024_coreview/signin.php

Sign in using the username and password you created when you signed up as a committee member. If you have forgotten your username or password, the website provides options to reset them.

After logging in, the website will display the list of submissions assigned for you to review. Clicking on the submission title will bring up the online review form, and clicking on the file symbol to the right of the submission title will bring up a copy of the file.

You may also reopen, modify, or amend previously submitted reviews before the review deadline.

Please note that the Technical Committee has already checked all submitted articles using IEEE Crosscheck to ensure that the similarity index (SI) is not more than 30%. Hence, any paper with an SI above 30% will be rejected and will not be designated for review. Therefore, reviewers are NOT REQUIRED to perform any plagiarism checks using TURNITIN or similar software.

Also, each paper is assigned to five reviewers. Once we have received a sufficient number of reviewers to make a decision, we will release the remaining reviewers who have not completed their tasks, even before the deadline for reviews.

REMINDER: By reviewing unpublished submissions, you are accepting the ethical responsibility not to disclose their contents to anyone else.

If we assigned you your own submission or a submission for which you have a conflict of interest, let us know and we will reassign you!

As a token of appreciation, we will issue an e-letter of appreciation to reviewers who have completed their review tasks.

Thank you for supporting the success of the 2024 IEEE 15th Control & System Graduate Research Colloquium (ICSGRC 2024).

Best Regards
ICSGRC 2024 Technical Chair

Dear Ripal,

Thank you so much for expressing interest in being a reviewer for the ACM/CSTA 2024 Cutler-Bell Prize in High School Computing. We have reviewed your application, and are excited to let you know that you have been selected as a reviewer!

This year we received 23 eligible nominations from students across the United States. As a reviewer, you have the privilege to be able to review these students' applications and provide them with feedback on their projects. We have some very exciting submissions this year and hope you will enjoy reviewing them.

Supporting Your Editorial Experience

Dear Mr. TANK,

Thank you for your application to join the International Journal of Computer-Assisted Language Learning and Teaching (IJCALLT) as a reviewer. The Editor-in-Chief has determined that your expertise is a good fit for this journal and has added you to the journal's list of ad hoc reviewers. Once a manuscript is received that aligns with your research expertise, it will be sent to you for review. We strongly advise that you consult the [peer review section](#) of the IGI Global publishing page. Authors of articles submitted to this journal are relying on your valuable feedback. It is important to provide the most detailed assessment possible. Please see a quality peer review sample [here](#). Upon the completion of 2-3 quality and timely reviews, ad hoc reviewers have the potential to be promoted to full editorial review board member status.

If you have any questions, please contact the journal's Editor-in-Chief at ijcallt@igi-global.com.

Thanks, and have a nice day!
