Keck Graduate Institute (KGI) and Atmiya University (AU) Memorandum of Understanding

AU students have the unique opportunity for transition to any current or future KGI graduate program for which they are eligible.

We have developed a pathway for transition students from AU to KGI. This pathway includes application benefits, as outlined for each program below.

APPLICATION BENEFITS:

- Priority consideration for scholarships, all programs except:
 - Postbaccalaureate Pre-PA Certificate
 - Postbaccalaureate Premedical Certificate
- Preference for seats in summer programs
- Expedited application review
- Application fee waiver, for the following programs:
 - Master of Business and Science
 - Master of Engineering in Biopharmaceutical Processing
 - Master of Science in Applied Life Science
 - Master of Science in Human Genetics and Genomic Data Analytics
 - Master of Science in Medical Device Engineering
 - Master of Science in Translational Medicine only
- Standardized test score waiver, for the following programs:
 - Master of Business and Science
 - Master of Engineering in Biopharmaceutical Processing
 - Master of Science in Applied Life Science
 - Master of Science in Medical Device Engineering
- Guaranteed interview, all programs except:
 - Master of Science in Human Genetics and Genetic Counseling
- Waiver of one letter of recommendation:
 - Master of Science in Human Genetics and Genomic Data Analytics

ELIGIBILITY REQUIREMENTS:

- Complete (UG) all degree requirements at AU
- Graduate with a cumulative GPA ≥ 3.0 on U.S. scale
- Grade of "C" or better in each prerequisite course on U.S. scale
- Complete 60+ hours of internship, work, shadowing, clinical, or research experience in an academic, nonprofit, corporate, or laboratory environment related to your program of study
- Complete a program at AU that is related to your chosen field of study at KGI

STEPS TO TAKE DURING YOUR UNDERGRADUATE CAREER:

- Attend a visitation day at KGI or participate in a virtual event (for dates visit kgi.edu/visit)
- In collaboration with your advisor, develop a curriculum plan to ensure your eligibility for your chosen field of study at KGI

Biotechnology Industry Bootcamp

The biotechnology industry has harnessed the power of the life sciences to create life saving advances in human health, increase the productivity of agriculture, and enable amazing innovations in other industries, such as biofuels.

Keck Graduate Institute (KGI) and Atmiya University are partnering to present a three-day boot camp designed to introduce students to biotechnology. The program will feature highly interactive sessions in which students will learn about the global life science industry, understand processes by which scientific advances are commercialized into companies, and explore career options in biotechnology.

Highlights

The boot camp is designed as a highly interactive, discussion-oriented event. Highlights of the program include:

- An overview of the biotechnology industry from both the perspective of the United States and India.
- An interactive boot camp event, in which small teams of students will investigate the discovery and commercialization of a major biomedical innovation within the biotechnology industry.
- An in-depth analysis of a business case study exploring how discoveries from universities are commercialized into biotechnology firms.

- A half-day bioentrepreneurship pitch competition, in which teams of students will develop a business pitch surrounding the commercialization of an innovation in regenerative medicine.
- An overview of career options within the biotechnology and pharmaceutical industries. A review of educational opportunities to develop a career in biotechnology offered by KGI at both its campus in California and through its partnership with the Biocon Academy in Bangalore.

Schedule:

Title	Date	Time (IST)
Introduction to the bioscience industry	July 22, 2020	8:00-11:00 a.m.
Introduction to bioentrepreneurship	July 23, 2020	8:00-11:00 a.m.
Bioentrepreneurship boot camp project and final reflection/celebration	July 24, 2020	7:30-11:30 a.m.

Program Leadership:

Dr. Steven Casper, the Henry Riggs Professor of Management at KGI, will lead the program. Casper is an expert on international business, and has published studies of how the biotechnology industry has emerged and become sustainable in Europe, the United States, and Asia. Casper teaches courses on the biotechnology industry, international business, and global health policy at KGI.

Registration Steps and Criteria's for Selection:

Step 1. Please fill up the following google form.

Link: <https://forms.gle/38QYKoPBzY8pLXK18>

This google form has general details and intent for your participation. Additionally, it has a section of write-up (200 words) which is **an important criterion to get selected for boot camp.**

Topics for write -up are as follows (Any one):

(A) Latest breakthroughs in biomedical innovations

OR

(B) Innovations in regenerative medicine

Last Date: 18/07/2020 10:00 am forms will close.

Step 2. The participants who have filled the preregistration form will receive link for **screening test** which is scheduled on **18/07/20, Saturday from 2:30 to 3:30 pm.** The screening test is to analyze the entrepreneurship mindset of the participants

Step 3. Selected students will be provided the KGI link to register for the event on **20/07/20, Monday before 2:30 pm.**

Fees:

Course is Free. However, **a deposit of Rs. 500/-** has been kept for finally selected students which is fully refundable on successful completion of the course and submission of certificate provided by KGI.

KGI Bootcamp preparation meetings

Three preparatory meetings have been scheduled by Dr. Varun Shah from 3:45 pm to 4:30 pm on 21st July, 22nd July and 23rd July for KGI Bootcamp selected students to prepare them for basic entrepreneurship terminologies, fundamentals, facts and scenarios.

Preparatory meet 1: Students were explained the facts about IPO, Equity and such other terms. They were advised to improve their soft skills.

Preparatory meet 2: Students were given insights about how to read and prepare the case study. Viewpoints of investors/venture capitalists while they look for investment opportunities was also briefly discussed in the meeting.

Preparatory meet 3: Students were explained how to pitch-in an idea for their day 3 activity.

KGI Bootcamp

Day 1: 22nd July 2020

KGI online Bootcamp on Bioentrepreneurship is being jointly organized by Keck Graduate Institute, USA and Atmiya University, India. Dr. Steven Casper from KGI, USA and Dr. Shivani Patel from Atmiya University, India are jointly co-ordinating the bootcamp. KGI Bootcamp is being hosted on zoom platform by Dr. Steven Casper.

Dr. Steven Casper introduced himself and gave a brief overview of the programme. Then, all the participants introduced themselves. Faculties - Dr. Varun Shah, Dr. Mousumi Das, Ms. Arti Patel and Dr. Anmol Kumar from Atmiya University also attended the KGI bootcamp. Dr. Mousumi Das has recorded all the sessions.

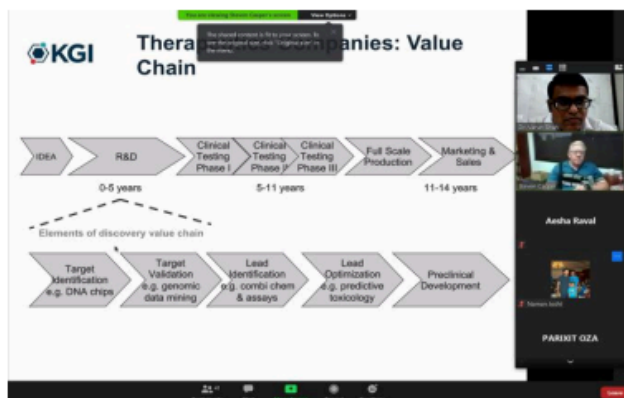

Subsequently, Dr. Casper formed 9 teams of students and separated them in break out rooms and gave them an assignment to find out basic scientific and market details of the target molecule/drug/device. Then each team was asked to present their findings.

Ms. Meghana Joshi joined the meeting and gave an overview of the KGI-Biocon Academy programmes. Dr. Steven, concluded the day with the assignment, a case study, to the students for Day 2.

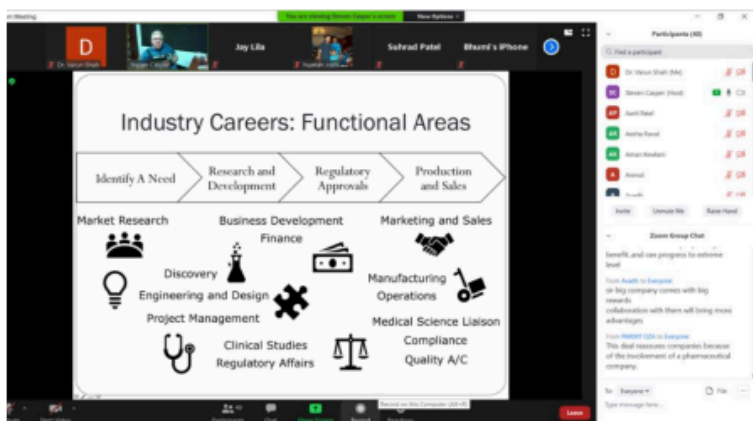

Day 2: 23rd July 2020

Dr. Steven Casper gave a brief overview about the Sirtris Pharmaceuticals, subject of the case study. He asked several questions to evaluate the analysis of students about the case study. He asked students to answer them in chat rooms. Students proactively answered the same and also participated in the discussions. Subsequently, he explained valuation calculations from venture capitalists view point.

Subsequently, discussions took place on what approaches the company should proceed ahead based on the case study. Students actively gave their view points and were appreciated by Dr. Casper. Then, Dr. Casper gave a brief presentation on career opportunities in bioscience industry. Dr. Casper concluded the day with the day 3 agenda - Activity on how to pitch-in?

Day 3: 24th July 2020

Dr. Steven Casper gave a brief overview and guidelines about the pitch-in activity. Subsequently, he formed six teams and gave them six different research articles based on stem cell discoveries.

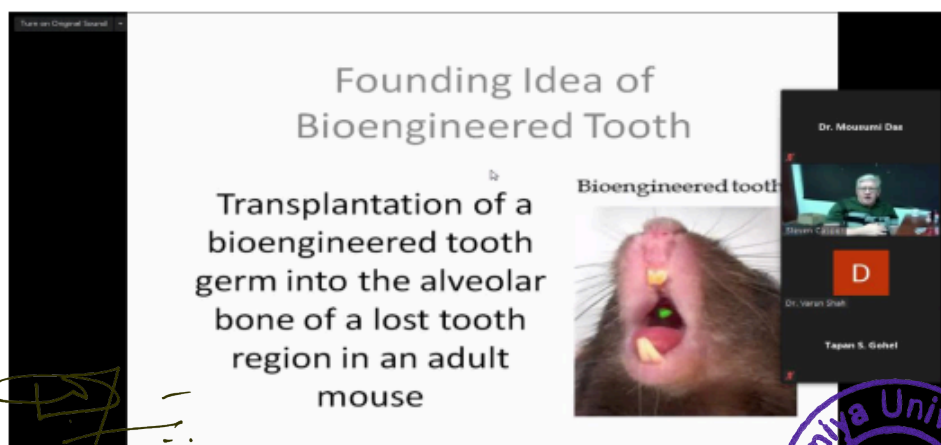

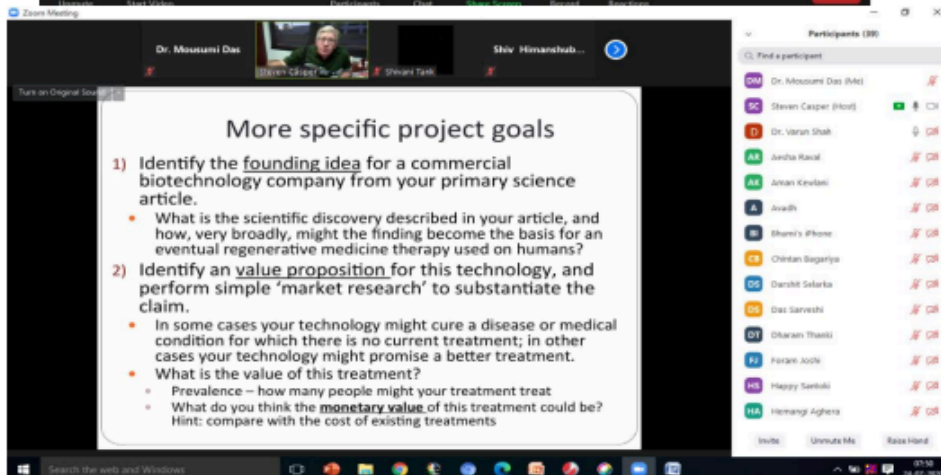

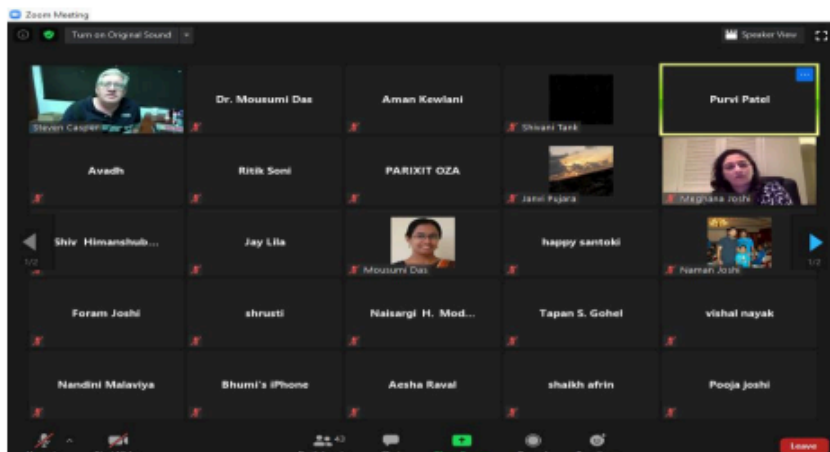

Students were asked to think on commercializing the concept. They were asked to work on founding idea, value proposition, market assessment, technical milestones and deliverables. Students were given 2 hours to prepare a pitch-in for 5-6 minutes. Thereafter, one by one each team pitched-in. Students did very well in preparing for the pitch-in. However, during the actual pitch-ins they found it difficult to make a case out of their proposition. Some of

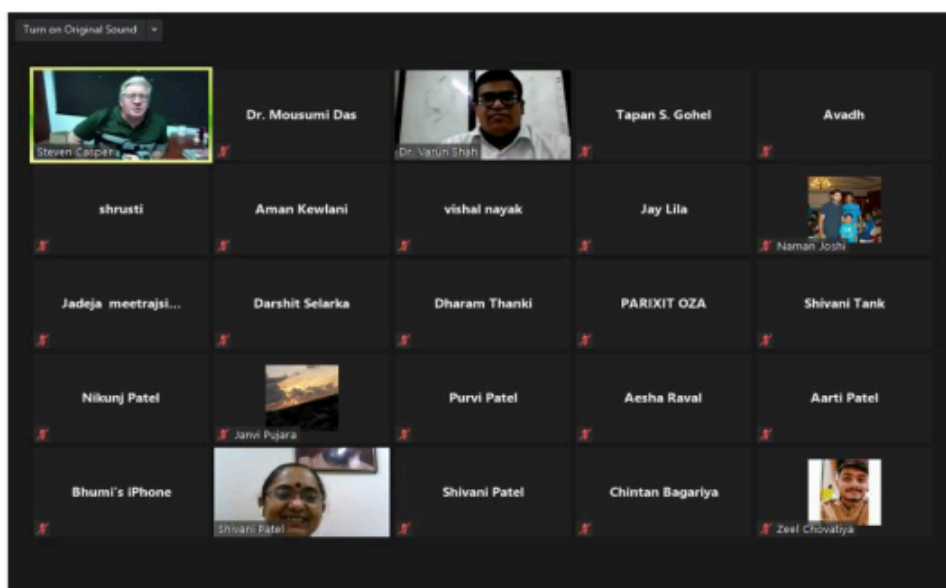

them mixed up the concepts in technical milestones whereas marketing assessment was not to the point for some of the groups. Similarly, other points were pointed out to students for their assessment. At the end of the activity everybody voted for the best pitch-in. In general, considering the time frame of 2 hrs for preparation they did fairly good. Dr. Steven concluded by giving his feedback

VALIDICTORY:

Dr. Shivani Patel and Dr. Varun Shah thanked Dr. Steven Casper for his valuable time and arranging such a wonderful and interactive bootcamp. Students thoroughly enjoyed the activities and bootcamp provided them with a new vision in the direction of commercializing bio-based concepts.

KGI Signs Articulation Agreement with India-Based Atmiya University

MAY 12, 2020

Keck Graduate Institute (KGI) has expanded its list of articulation agreements to 28 institutions, helping prospective students to make a seamless transition into the master’s programs within the Henry E. Riggs School of Applied Life Sciences and the School of Pharmacy and Health Sciences.

The most recent addition to the list is Atmiya University in India, KGI’s third collaboration with an international university.

“We are so excited about the prospect of working with students from Atmiya,” said KGI President Sheldon Schuster. “We know that future collaborations will bring a great relationship between our institutions.”

As a result of the articulation agreements, qualified students receive a waiver for the application fee and the requirement for standardized test scores is also waived. Qualified students also receive priority review of their application and additional scholarship opportunities.

“We look forward to increasing our pipeline of students from Atmiya University!” said KGI Dean of Admissions and Financial Aid Sofia Toro. “Having another international school join our list of articulation agreement schools will allow more students to study healthcare and the applied life sciences.”

KGI leadership is also close to finalizing agreements with several more schools and the goal is to expand the agreements to other degree programs within the Henry E. Riggs School of Applied Life Sciences and the School of Pharmacy and Health Sciences.

If you have questions about the articulation agreements and how to apply, contact the admissions office at admissions@kgi.edu or 909.607.7855.

Respected Member of Board of Studies,

Greetings from Atmiya University!!!

The **Sixth Meeting** of the Board of Studies of **Chemistry** is scheduled on **30-04-2022** (**Saturday**) from **10.00** am onwards in hybrid mode.

As you are aware from the Academic Year **2021-22** the University has adopted **Outcome Based Education (OBE)** model for all its Diploma, UG and PG programs and continuing with the **CBCS pattern** of curriculum framework, including the aspirations of **NEP 2020**.

We would like to invite you and request you to allot your precious time for the fruitful discussion in this meeting for framing of the relevant curricula and syllabi. The detailed agenda of the meeting is enclosed herewith.

Meeting details such as link/platform/venue will be shared with you prior to the date of the meeting.

Looking forward to your confirmation and valuable participation.

With warm regards,

Dr. Pankajkumar B. Nariya

STAMP DUTY GUJARAT

This Annexure to Memorandum of Understanding already entered into between the Logistics Sector Skill Council (LSC), and Atmiya University, Yogidham Gurukul, Kalawad Road, Rajkot-360005, Gujarat-INDIA (Collaborating Institution) has been signed by both parties on the First Day of June 2020 to define mutual responsibilities for ensuring admission of quality students to the Apprenticeship-based UG Degree Programme in Logistics (Programme), on boarding of students for Apprenticeship, Apprenticeship Administration, and Apprenticeship Assessment.

THE PARTIES AGREE AS FOLLOWS:

Purpose:

1. The objective of this Annexure to the Memorandum of Understanding (MoU) already signed between both parties is to define mutual responsibilities for ensuring admission of quality students to the Apprenticeship-based UG Degree Programme in Logistics (Programme), onboarding of students for Apprenticeship, Apprenticeship Administration, and Apprenticeship Assessment in order to make sure a smooth and efficient process, so as to make it pleasant to both parties.
2. Responsibilities defined in this Annexure should be treated as cardinal if there is any difference between the MoU and this Annexure.

Responsibilities of LSC:

3. Conduct online Admission Test for all prospective students for the Programme in order to assist the CI to make informed judgement of the quality of applicants before admitting them.
4. Arrange for conducting about 50 hours of Vertical Training on the practical aspects of domain courses to students of the Programme – either in the premises of the CI or through interactive online platform or both – and assign exercises, home works, & case studies to students.
5. Conduct two online tests per Semester on the domain courses scheduled in the concerned Semester with the objective of assessing the domain knowledge gained by students.
6. Share the scores obtained by students in 3, 4, and 5 above to CI to help understand the knowledge levels of students for the purpose of providing remedial coaching by CI.
7. Conduct monthly Online Logistics Lecture series by senior executives from industry for the benefit of students, and faculty.
8. Conduct the activities mentioned in points 3 to 7 above at its own cost, and not by charging any fee either on the CI or its students. These activities are initiated by LSC to supplement the efforts of CI in moulding the students.

A Comparative Genomics Approach for Shortlisting Broad-Spectrum Drug Targets in Nontuberculous Mycobacteria

Authors: Aishwarya Swain, Pranavathiyani Gnanasekar, Jyoti Prava, Athira C. Rajeev, Pragya Kesarwani, Chandrajit Lahiri, and Archana Pan

Abstract

Many members of nontuberculous mycobacteria (NTM) are opportunistic pathogens causing several infections in animals. The incidence of NTM infections and emergence of drug-resistant NTM strains are rising worldwide, emphasizing the need to develop novel anti-NTM drugs. The present study is aimed to identify broad-spectrum drug targets in NTM using a comparative genomics approach. The study identified 537 core proteins in NTM of which 45 were pathogen specific and essential for the survival of pathogens. Furthermore, druggability analysis indicated that 15 were druggable among those 45 proteins. These 15 proteins, which were core proteins, pathogen-specific, essential, and druggable, were considered as potential broad-spectrum candidates. Based on their locations in cytoplasm and membrane, targets were classified as drug and vaccine targets. The identified 15 targets were different enzymes, carrier proteins, transcriptional regulator, two-component system protein, ribosomal, and binding proteins. The identified targets could further be utilized by researchers to design inhibitors for the discovery of antimicrobial agents.

The article title is "The Collagen-Modifying Enzyme PLOD2 Is Induced and Required during L1-Mediated Colon Cancer Progression" by Sanith Cheryamundath, Anmol Kumar, Nancy Gavert, Thomas Brabletz, and Avri Ben-Ze'ev. The authors' affiliations are listed as the Department of Molecular Cell Biology at Weizmann Institute of Science, Rehovot, Israel, and the Experimental Medicine I, Nikolaus-Feibiger-Center for Molecular Medicine, University of Erlangen-Nuernberg, Germany. The article was published on 29 March 2021. The abstract discusses the overactivation of Wnt/β-catenin signaling in colorectal cancer and identifies L1 as a target of β-catenin-TCF transactivation.
