	<b>KI 5.4</b>	<b>M 5.4.2</b>

<b>5.4.2</b>	Alumni contributes and engages significantly to the development of University through academic and other support system
--------------	---

**Introduction:** As part of our ongoing efforts to enrich the learning experience and support educational resources, we are grateful to our alumni for their generous contributions to the institution. Among the recent donations, the category of “Donation of Equipment, Books, and Other” has seen notable contributions, which include a total of 240 books and 5 book talks. These contributions reflect the continued commitment and support of our alumni in enhancing the academic environment for current students.

**Donation of Books:** A significant portion of the donations came in the form of 240 books. These books span a variety of academic disciplines, ranging from core subjects such as literature, science, mathematics, and history, to specialized fields, including technology, business, and the arts. The diversity of books donated ensures that students have access to an extensive range of reading materials that complement and expand upon their curriculum.

The importance of having access to a well-stocked library cannot be overstated. These books will provide students with up-to-date reference materials, diverse perspectives, and in-depth knowledge to support their academic and personal growth. The donation of books enhances the library’s resources and helps bridge any gaps in materials available to students, especially in areas where textbooks and reference books may be in limited supply.

### Book Talks delivered by Alumni

In addition to the physical books, alumni have also contributed in a unique way by organizing 5 book talks. These talks provide an invaluable opportunity for students to engage with experts and authors, deepening their understanding of key subjects and contemporary issues. The book talks are an excellent platform for students to broaden their perspectives, as they engage with the broader intellectual community outside of the classroom.
